

BRANOpac

Clean. Safe. Intelligent. Corrosion Protection.

Your Partner in Corrosion Protection

BRANOpac India Private Limited is the Indian subsidiary of BRANOpac GmbH, Germany, a Globally recognized company in corrosion protection and industrial packaging solutions. Established in India in 2002, BRANOpac India combines German VCI technology with local manufacturing and technical expertise to deliver reliable corrosion protection solutions tailored for **Seaworthy Protection**.

We support customers across various industries with our comprehensive product range of **VCI Papers, VCI Films, Rust Preventive Oils, Desiccants, Aluminium Barrier Foils, and Speciality Packaging products like Stretch Films, UV Stabilised Films and Anti-Static Films etc.**

Our solutions are trusted across varied industries, such as **Automotive, Engineering, Forgings, Machining, Steel and other Metal Industry, Electrical and Electronics, Medical Applications** to mention a few.

With **ISO-Certified** processes, **DIN-Certified** desiccant manufacturing, and in-house state-of-the-art laboratory support, we help manufacturers reduce corrosion-related losses and ensure products reach their destination clean, safe, and ready for use.

Corrosion Challenges & Our Approach

Metal components are constantly exposed to corrosion risks, especially in India's humid climate and during long storage or overseas transport. High humidity, monsoons, port delays, multiple handling points, and coastal or industrial pollution significantly accelerate corrosion if not properly managed.

Metal part

Corrosion

Corrosion ruins
metal parts

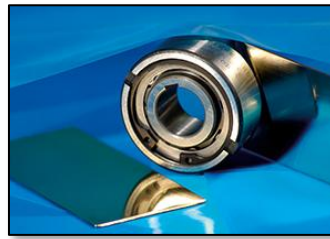

Conventional packaging often fails to provide adequate long-term protection, leading to rust, rework, rejections, and customer dissatisfaction.

BRANOpac provides safe, efficient, and cost-effective corrosion protection systems, designed to work independently or in combination based on application requirements.

Our Product Portfolio

**BRANOCcell
VCI PAPER**
(Corrosion Protection for all requirements)

**BRANOplast
VCI FILM**
(Corrosion Protection with Transparency)

BRANOfluid
Rust Preventive Oils

BRANovac & Desiccants

FERROgard
(For Ferrous Metals)

BRANOfol M4 VCI Film
(Special three-layered Structure for Multi-Metal Protection)

BRANOtect Allii/ Export
(Seaworthy Corrosion Protection for a Longer Period)

**Aluminium Barrier Foil
(3 layers & 4 Layers)**
(Atmospheric Packaging Against Moisture)

MULTiguard
(For Ferrous and Non-Ferrous Metals)

BRANOfol M5- Stretch Film
(Optimal Contact Protection with both sides VCI Property)

FERROtect
(Corrosion Protection for all Metal Surfaces)

**Vacupac
MIL Certified**
(Moisture-proof Barrier-layer Material for Challenging Application)

BRANOrst R/U
(Premium Papers for Protection upto 3 years)

BRANOfol LPM- Bubble VCI Film
(Air Cushion Film with VCI)

BRANOral 32/10
(VCI Oil for Hollow Spaces)

Desiccants
(Effective & Reliable Moisture Adsorbent)

BRANOCop
(Premium Paper for Copper and its Alloys)

BRANOfol M8AL
(VCI Film with Aluminium Barrier Foil)

BRANOClean DWFQD
(Removes all remnants before Oiling)

**BRANODry
DIN 55473 certified**
(A High Adsorbent Clay Desiccant)

SILVERbrite
(Protection of Silver and its Alloys)

BRANOfol S
(Protection for Silver)

FERROtect Rust Cleaner
(Removes Rust without Altering Properties)

BRANOGel
(High Moisture Adsorption based on Bentonite Clay & also in Silica Gel)

Customization

BRANOPAC India offers customized corrosion protection and packaging solutions tailored to your specific product, process, and industry requirements.

From VCI papers and VCI films in various colors, GSMs, microns, and performance properties to application-specific formats and packaging concepts, we work closely with our customers to ensure **optimal corrosion protection, process efficiency, and reliable performance** across storage, handling, and transportation.

Why Choose BRANOpac India

- ☑ German corrosion-protection technology
- ☑ Proven performance in Indian and Global conditions
- ☑ DIN 55473 certified Desiccants
- ☑ Application-specific packaging design
- ☑ On-site audits and technical support
- ☑ Quality, Compliance and Consistency
- ☑ Complete System Approach
